

# The new sub-110g/km BMW 320d EfficientDynamics Saloon

Dear Anna

In March next year, BMW will deliver a major advantage to company car fleets when it launches the first ever premium executive car to emit less than 110g/km of CO<sub>2</sub>.

Thanks to the latest BMW EfficientDynamics technologies, the new BMW 320d EfficientDynamics Saloon will achieve a remarkable 109g/km, bringing you and your drivers a number of significant financial benefits including lower NI and BIK costs. You can also improve your cash flow by claiming 100% tax relief on first-year writedown allowances if you outright purchase.

When you add this to the renowned handling and driving dynamics of the BMW 3 Series, including 8.2 seconds 0-62mph performance from the 163hp 2.0-litre diesel engine, you can see why this landmark car will make your drivers as happy as your company's accountant.

If you'd like to find out more about the new BMW 320d EfficientDynamics Saloon, please telephone the BMW Corporate Sales team on 0800 777 113 or email [corporatesales@bmw.co.uk](mailto:corporatesales@bmw.co.uk) or contact your preferred BMW Dealership.

Yours sincerely

Stephen Chater  
Corporate Operations Manager

## The Key Facts

- CO<sub>2</sub> 109g/km
- BIK 13%
- 68.9mpg combined
- 163hp, 2.0-litre diesel engine
- 0-62mph in 8.2 seconds

BMW EfficientDynamics   
Less emissions. More driving pleasure.
