

The new BMW Z4

An expression of joy

Dear Jon

On Saturday 9 May 2009, BMW will launch the outstanding new BMW Z4 Roadster and you can see an exclusive preview here. Its new contours create an elegant exterior that maintains its classic roadster proportions while increased space adds to the ambience and comfort of the interior.

Enhanced dynamics and a range of powerful engines, including the award winning 2008 International Engine of the Year, ensure an exhilarating driving experience, while the new retractable, aluminium hardtop means it's an experience you and your drivers can enjoy throughout the year.

We will send you further information about this exciting new roadster as it is revealed. In the meantime, click [here](#) to see additional pre-launch news as well as the facts and figures of the models available at launch.

Yours sincerely

Chris Brownridge
Corporate Operations Manager
